## WELL ALL FLY IN 1913, SAYS BIRDMAN

New York, May 8 .- That flying by eroplane will be very common by if not before, is the prediction made by Louis Bleriot, the noted French aviator, who is spending a few days in America, "Aeroplanes will be as plenty as automobiles ten or twenty years hence," he says. "Not only men, but women, will fly across

the Atlantic." M. Bleriot will not fly in America In fact, he will do very little flying in the future, but will devote the most of his time to the manufacture of monoplanes. He may stop long enough to make a flight from Peking to Paris late this year, however. He

believes he can make the trip in fifteen days. "I am making monoplanes for Ger-many, France and Italy," says Bleriot. 'I made seventy-two machines last year, and during the first four months of 1912 I have made 180. The race from Peking to Paris will do more to develop aeroplanes than anything that has yet been offered. Speed will not count in the development hereafter." M. Bleriot, who is accompanied by Mme. Bleriot, will return to France on

What are you going to do about it?

Drink Cup Will Remain in Pensacola

(Continued from First Page.) has recently been adopted by the councils of the leading cities throughout the country.

Baseball Discused. Alderman Semmes read a lengthy ommunication from the Playgrounds Association, in which it was shown that the board of public works had recently revoked the permit for the use of Alabama square as a place for the Twilight League games to be played. The communication pointed out the fact that considerable money had been spent in preparing the place and that nospital this morning where he had it was done with the understanding that it could be used for at least two years. It was further asserted that unless the permit could be extended for the remainder of this season and then a permanent place provided, the league would have to disband. The council was asked to extend the permit and to grant the permanent use of Cordova square after the present

Dr. C. E. Hutchinson, a member of the Playgrounds Commission, admuch the same ground as that covered in the communication, and urged the council to extend the permit and grant the permanent use of Cordova quare after the present season.

After some discussion, the matter was referred to the committee on parks and ways to confer with the board of public works, with instructions to take action and report back

as early as possible. To Relieve Pumping Station, The water and gas committee recmmended that a 36-inch storm sewer e laid on Guillemarde street, between right and LaRua, a distance of about "Ballot" is the comfortable low collar with "Easy-Tie-Slide" space and patented "Lock-that-Locks."

Wright and Lakua, a distance of about 786 feet, for the purpose of relieving the situation at the pumping station and to prevent the station being over-flowed again. It was stated that this was done on the recommendation of the city engineer, who was of the the city engineer, who was of the or inion that this would permanently relieve the situation. The matter was a style distinction to this referred to the board of doing the referred to the board of bond truscollar that you are sure stimate as to the cost of doing the work, and report back at the next meeting.

Another Ordinance Laid Over. After hearing the report of the ordinance and engrossing committee, accompanied by the opinion of the city attorney, in which it was stated that the ordinance would not be legal if dopted, proposed ordinance No. 57, roviding for the building of the cenfire alarm station in the parkway n Spring street, between Romana and Garden, was laid on the table until the next meeting. This motion was argued considerably, but the members of the erdinance and engrossing committee stated that the only reason for desiring to table the ordinance was that some more data was to be presetned at the next meeting of the committee bearing upon the ordinance, whereupon the objection was withdrawn.

To Destroy Bonds.
The board of bond trustees recommended the passage of an ordinance, drafted by Dillon, Thompson & Clay and approved by the city attorney, authorizing the city to recall and destroy \$4,000 worth of the refunding cently issued to redeem the bonds issued in 1881. The reason for of 1881 than were figured on when the refunding bonds were ssued. The bonds, it is presumed, have been either 72 South Pryor Street, Atlanta, Ga.

# or who have expressed preferences, and do not take into account rumors advanced by either side as to desertions and changes. NEW YORK HERALD SUMMARY.

> lost or destroyed. At the proper time the ordinance was introduced and after first reading, was referred to the

> The passage of the ordinance simply neans that in case the missing bonds ever turn up the city will have to take care of them from the general fund. Other Matters. A communication from the board of public works and one from the resi-

> dents of that portion of the city asking that some steps be taken to drain the section of the city west of A street and south of Government, were referred to the finance committee. The board of works recommended that \$250 be appropriated for this purpose. After hearing from Mr. Baben, who lives with his daughter at the southeast corner of Belmont street and Eighth avenue, in reference to the damage done to his property through recent rains caused by the grading and

> paving done by the city, it was decided to refer the matter to the finance committee for a reconsideration, that committee having previously recommended that no damages be allowed. The request of the board of health for an appropriation of \$500 to aid in the campaign against files and mosquitoes was also referred to the finance

committee. After reading a communication from resident of that section, the matter of working the streets in the extreme northwestern section of the city was referred to the board of public works, After hearing a communication from the chairman of the board of public works, it was recommended that the board of public safety turn over to the board of works the condemned hose now on hand, to be used in the work

of the latter department. Acting upon the recommendation of the finance committee, the council voted to appropriate \$200 to be used to establish a fire alarm box at the

corner of Garden and B streets, The harbor and sanitary committee reported that a full report upon the DeVilliers street sewer matter would be made at the next meeting. It was stated that the reason the report was not made last night was because the report would include a written recommendation from the city engineer, which had not yet been obtained. Chairman Oliver stated verbally that the committee would recommend the nstalling up a pump and an electric notor, which would cost approximate-\$2,000, and which the engineer said

ould give relief. The committee asked for further time on the ordinance to authorize the sale of certain waterfront property to M. J. Elkan, and the time was granted, A number of ordinances of minor importance were read for the second time and referred to the ordinance and engrossing committee.
